

INTRODUCING!

GTC Mod II Cylinder Test System

The new and feature-packed GTC Mod II manual test system carries on the tradition of its predecessor, the GTC 10K –

- ✓ **Low Cost**
- ✓ **Accurate**
- ✓ **Easy to Use**

- Manually tests up to 8 -12 cylinders per hour of many types and varieties.
- Expansion measured with electronic accuracy to 1/10CC by the Electronic Expansion Measuring System (EEMS) with LCD display.
- Operator panel and handles are conveniently located up-front for precise test control, while the console footprint is less than 5 sq. ft.
- Configurable in either 1 or 2 Test Jackets.
- Testing pressures range from 400 to 10,000psi.
- One-year warranty. Extended to 18 months when installed by a Galiso Service Tech.

What the GTC Mod II will do for you!

When considering bringing fire extinguisher testing in-house to better serve your customers, Galiso is here to assist in all aspects of shop set-up. You will realize the maximum potential from the lay-out, you will reduce turn-around time, you will reduce labor costs, and you will maximize your Return On Investment.

- ✓ Features enhanced expansion system operation, bowl fill/drain
- ✓ Pump control regulator now more accessible
- ✓ Improved aesthetics and ease of use
